

Feral Cat Fridays

The *Alabama Spay/Neuter Clinic* will be holding Alabama's first **Feral Cat Friday**, a new program dedicated to helping provide a humane solution to feral cat colonies, on January 23rd, 2009.

On **Feral Cat Fridays** cat colony caretakers are encouraged to trap as many of their feral cats as possible and bring them to the clinic for spay/neuter, supplemental pain meds, rabies vaccination and flea, worm and ear mite treatment.

All cats will have their ears tipped to show that they have been altered.

Total package price is only \$45.

Transportation will be provided within our coverage area if caretakers are unable to bring them in. The cats will stay overnight.

Prepayment is required and appointments must be made.

Feral Cat Fridays will be a monthly event and will be held on February 13th and March 13th.

Check for future dates.

For more information contact Donald at SpayAlabama, 866-9-SpayAL.
